

INTEXA

ARCHITECTURAL TIMBER SYSTEMS

WOODINEX

ACOUSTIC FENCE

PRODUCT FACT SHEET

Transform your fence using Intexa's Woodinex acoustic fencing. Using Australian sourced and manufactured timber, the unique profiles enable you to create your own customised design. Available in CCA and arsenic free treatments with a variety of pre-finished oiling options ensures versatility for all applications. With structurally engineered designs, Woodinex acoustic fencing can be used for DTMR* and QR* applications.

*Subject to individual project approval

FEATURES + BENEFITS

- Combination of palings & battens creates large visual shadow-line effect
- Available in multiple sizes
- 25mm thick timber ensures minimum 15kg/m² density
- Variation in design
- Made from Australian Timber
- Available in Pine and Hardwood (see below matrix)
- Timber is preservative treated with either CCA or non-arsenic treatments
- Pre-finished option available

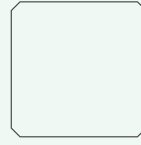

IDEAL USES

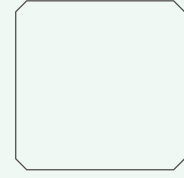

- Estate boundary fencing
- Entrances to estates
- Residential fencing bordering main roads
- Non-arsenic treatment can be used in public facilities, parks, etc.
